PROFILE

- BCA graduate (2026). Self-taught Shopify and WordPress developer.
- I set up Shopify stores and edit themes in Liquid.
- I build custom WordPress themes, small plugins and Elementor pages.
- I code in core PHP, MySQL, JavaScript and jQuery.
- I use AI tools to write, debug and ship code faster.
- Quick learner. I picked up Shopify, WordPress and PHP on my own.
- 4 months of off-page SEO work at a digital agency.
- Looking for a junior Shopify or WordPress developer role.

SELF-LEARNING WORK

Shopify store on Ella theme

Set up the paid Ella theme. Added products, collections and CMS pages.

Custom WordPress theme

Built from scratch on the template hierarchy. Custom post types, menus and widgets.

Elementor pages

Landing pages in Elementor. Custom CSS where the builder falls short.

Shopify Liquid edits

Changed theme sections and templates in Liquid. Styled them with CSS.

WordPress plugin

Small plugin with hooks, shortcodes and an admin settings page.

Docker setup

Local WordPress and PHP setup in Docker. Runs the same on any machine.

EXPERIENCE

SEO Intern · Cubic Digital

Jan 2026 – Apr 2026

- Built backlinks for client websites.
- Did business listings, directory submissions, social bookmarking and profile creation.
- Did keyword research to pick target keywords.
- Ran competitor analysis to find gaps in client pages.
